Attend trade shows to update latest trends

PD & D

SOCIAL RESPONSIBILITY

Twice a year factory management would visit local children shelter and give contributions of food as well as story books and stationery.

We also contribute to the poor and deprived communities by donating rice and basic household necessities.

ENVIRONMENT SUSTAINABILITY

- Our factories are equipped with water cooling system offers energy saving and reducing carbon emission.
- Replacing conventional wood/coal boiler with the more environmentally friendly waste burning boiler achieved substantial cost saving up to 50%.
- Replacing fluorescent with LED, saved 60% of energy consumption in production floor over a period of 5 years.

THANK
YOU
